Researchers

DatscoGo: A Mobile-Based Scheduling and Information App for Siargao Island

PART I. RESPONDENT'S PROFILE

Name: _____

Contact Information (*Optional*): _____

Name of Agency: _____

PART II. USER'S RATING

✓ Rate the system using the indicators stated below. Put a check (/) in every item based on your assessment of the system.

Scale	Parameter	Verbal Interpretation
5	4.2 - 5.0	Strongly Agree
4	3.4 - 4.1	Agree
3	2.6 - 3.3	Fair
2	1.8 - 2.5	Strongly Disagree

<u>A. FUNCTIONALITY</u>	5	4	3	2	1
1. Correctness: The app provides accurate multi-cab schedules, travel routes, fare details, and passenger information in Siargao Island.					
2. Interoperability: The app integrates well with backend services, database management, and administrative update functions.					
3. Compliance: The app complies with necessary travel-related standards (e.g., travel updates, transport schedules, service announcements).					
4. Security: Your personal data and account login details are kept secure while using the app.					
<u>B. EFFICIENCY</u>					
1. Time Behavior: The DatscoGo app shows efficient execution while giving the correct output for every search and schedule inquiry process.					
2. The DatscoGo app provides satisfaction to the user.					
3. The user can efficiently complete information retrieval and trip planning using the DatscoGo app.					
4. The user feels comfortable using the DatscoGo app.					
<u>C. USABILITY</u>					
1. Understandability: The app is easy to understand, even for first-time users.					
2. Learnability: It's simple to learn how to use the app's features (schedule search, route lookup, announcements) without extensive help.					

3. Testability: It is easy to test the app's functionalities during system updates.					
4. The DatscoGo app can sustain updates to verify (test) a DatscoGo app change.					
D. PORTABILITY					
1. The DatscoGo app can be moved to different mobile device environments and operating platforms.					
2. The DatscoGo app can be installed easily on mobile devices.					
3. The DatscoGo app can comply with software portability standards.
